Theme Music	Starts after tutorial (loops)
Place Sound	When placing an item

Delete Sound	When removing an item
--------------	-----------------------

Use the ■ button to mute/unmute all sounds.

■ Running the Game

Due to loading 3D models, run from a local server:

```
cd garden-makeover  
python -m http.server 8000
```

Then open: **http://localhost:8000**

■■ Technologies

Three.js r128 — 3D rendering

Pixi.js 7.3.2 — 2D UI rendering

GSAP 3.12.2 — Animations

Google Fonts — Fredoka & Nunito

■ Responsive Design

Mobile Portrait — 40% scene scale, compact UI

Mobile Landscape — 100% scene scale

Desktop — Full-size UI and scene

■ Enjoy designing your garden! ■
